My Website: josephlaudati.com

I am a Computer Science student at Clemson University pursuing a career in developing life-changing technology for those in need. Wether its building simple websites, creating user-friendly apps, or exploring new innovations, my passion for helping others drives everything I develop.

EDUCATION

Clemson University, Clemson, SC   *Spring 2026*

Bachelors of Science in Computer Science
Emphasis: Full-stack Development

PERSONAL PROJECTS

- **CUTigerpass:** A home-built web application designed to give Clemson students a place to securely buy and sell tickets off each other
    - Built a custom CRUD Python API that allows users to create database items and support frontend/backend interactions
    - Implemented security features like Fail2Ban, 2FA, API Rate Limits, and HTTPS certification to ensure a more secure and worry free experience
    - Designed a simple, easy-to-use, and accessible UI that allows users to easily accomplish their tasks
- **Home Lab:** My own backend development Environment and web server.
    - Configured a Dell PowerEdge R610 to run Ubuntu Server, where I developed a backend for CUTigerpass
    - Successfully troubleshot outdated drivers to establish a WAN connection between my LAN and the server.
- **Tiger Scheduling**: A simple reminder app to simplify your day

- Developed a lightweight reminder app to address everyday forgetfulness

- Created a streamlined UI that allows users to set reminders with just a few taps- selecting a time, day of week, and optional memo

WORK EXPERIENCE

Clemson University, Clemson South Carolina   *Fall 2022-Current*

Student Intern - Clemson Ticket Office

- Provides technical assistance and high quality service to ticket inquiring about Clemson tickets

- Supported ticketing operations using Ticketmasters Archtics software.

- Solved technical and personal problems in fast paced situations to ensure that patrons had the best experience while attending our events

Lowes Home Improvement, Mt. Pleasant South Carolina   *Summer 2021-2022*

Sales Associate - Garden Center

- Provided customer assistance to inquiring customers while they shopped in our department

- Operated forklifts to sort, restock, and organize product bays to ensure that customers could find what they needed.

- Assisted adjacent departments when staffing was low and activity was high

Harris Teeter, Mt. Pleasant South Carolina   *Summer 2019-2021*

Cashier

- Provided customer assistance to inquiring customers when they were finished shopping at our store

- Processed groceries in a quick and orderly fashion

- Ensured our customers had a pleasant experience when they left the store
